The story is a salute to veterans everywhere, regardless of the war, and the sacrifice they make for their country. It is also a story for those who are left behind and the sacrifices they make in wartime as well. This theme resonates strongly with today's world situation. But this is primarily the story of parallel journeys, each derailed by war that are righted and put back on course thanks to family, friends, and faith.

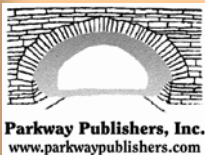

A Christmas Ride: The Miracle of Lights

By Edie Hand with Jefferey Addison
ISBN: 978-1-933251-68-4
\$11.95, Hardcover, 168pp, 5.5x7.5
September 2009

This is a multi-faceted story about the Warners, a family with two teenage children who celebrate their *not so* traditional Christmas Holidays in a condo in Colorado each year, and their complicated relationships. Through many rough rides, sharing the miracle of the season brings them together in spirit, and the wondrous display of lights on a snowy mountaintop is the perfect metaphor.

"Edie and Jeffery show us in this series that our journey is made up of many short, yet memorable rides. These novellas offer us simple, powerful lessons to fuel us on those future rides." – Joey Kennedy, Pulitzer Prize-winning editorial writer for *The Birmingham News*
