WOMEN OF TRUE GRIT

By

EDIE HAND & TINA SAVAS

Finally... the stories and secrets from the women who did it: work, succeed, pave the way for others to triumph. What did it take? What did they conquer? And where would you be if it weren't for them? Many of these women were the first in their fields and some are now retired, ready to share their past, their secrets, and their personal stories. They have decided it is *time to speak out...* to candidly share what happened to them because they were women. It is important not to forget. But most people have.

They tell it like it really was and is today, stunning real-life stories. Pillars of their communities...with various ethnic backgrounds... from all across America...with careers ranging from airline operator to advertising executive to horse jockey to Brigadier General. They are extraordinary women of vision and determination: *Women of True Grit* are the "WOW" women for the history books. They are the infamous and the famous who have touched our lives for the better.
